

Module Two

Task: Add something special

Everyone has something special about them and it's up to you to find what is special about your character.

1. Draw your bear, this time adding a body, outline only.
2. Draw your human, this time adding a body (when adding clothes) outline only. See video.
3. Add an extra quirky or endearing element to each of these characters. This will define the character in some way. It will also help to keep the character consistent. It might be a hat or a scarf or a unique pair of shoes. It might even be a special loved toy.

Try out some of my video techniques for adding quirky extras. Get acquainted with your characters and give them a name and an attitude. You will see yourself in these I am sure!
