

# Module One

## Writing assignment: Generate a list of ideas

Reflect on the ideas you've generated this month through your free writing and your idea generation exercises.

Write a line or a paragraph which summarises 3-5 of the ideas you've most connected with this month. For example:

A story about a girl who lives in a bookstore.

Feel free to include dot points about:

- what happens in the story
- key conflict or problem
- target age group of book
- style and tone of writing
- key themes in book
- possible illustration style
- possible market/publisher
- strengths of your idea
- personal connection to your idea.

Don't be too precious with your ideas. You don't have to stick to these through the course. This is more to show you that ideas are everywhere; we just have to look for them! I also want you to get in the practice of paying attention to your ideas and recording them.
