

# Module One

## Illustration assignment: Illustrate a short text

Find a text; just a short text. It might be a poem or a page from a picture book story. It might only be a sentence or even a word. Be sure to write notes about why you've chosen this text and how you connect with it.

Submit a sketch of how the text makes you feel. What does the text conjure up for you and where does it take you?

You can add shade and shadow but no colour, yet. Try to concentrate on line and contrast, and feel your way into the text. You might also like to submit a paragraph, which summarises your reflection.

You will be amazed at how much you will accomplish and how much you will "see", after doing all the exercises through this module.

Good luck and have a great time with this assignment.
